

Amendments to the Specification:

Please replace the paragraph on lines 1-3 of page 1 as follows:

5 The invention relates to an auxiliary part for mounting shaving attachments such as a skin
stretcher, a lubricator, and the like on or around an outer cutting member of an electric shaver in a
detachable manner.

Please replace the paragraphs on lines 22-28 of page 1 as follows:

10

The invention has for its object to provide an auxiliary part which is of an inexpensive and
simple construction and by means of which shaving attachments can be provided on or around a
shaving head in a simple and fast manner and can be removed therefrom again.

15 To achieve this object, the auxiliary part according to the invention is characterized in that
it is formed by an element which can be clicked onto the corresponding outer cutting member by its
one side and is provided at its other side with fastening means, for example snap connection means,
for one or several shaving attachments.

20 Please replace the paragraph on lines 20-24 of page 2 as follows:

25 For fastening the auxiliary part with the shaving attachments provided thereon securely on
the outer cutting member, the central surface is provided at its other side with a projection which
fits an accommodation space of the cutting member. The auxiliary part in this manner is not only
in contact with the outside of the cutting member, but also with the central cavity present in the
cutting member.

Please replace the paragraph on lines 1-6 of page 4 as follows:

5 The annular element 8 is very securely fastened to the outer cutting member 4 in this manner. A disc 14 of a material comprising a lubricant is provided on the central surface 11. The shaving attachments 9 and 14 are thus mounted to the outer cutting member 4 by means of a carrier element 8 and can be removed again from the cutting member 4 simultaneously with the annular carrier 8 when either the skin stretcher member 9 is polluted or the lubricant carrier 14 is exhausted.

10 Please add the following new paragraph on page 4, after line 33:

The foregoing descriptions make clear that in each of the embodiments disclosed the auxiliary part functions only to support and position attachments used in shaving.

15 Please delete the paragraph added on page 5 after line 3.
